

Kansai Operator algebra Seminar at Kinosaki

21 (Sat) – 22 (Sun) December, 2013

21 (Sat) Dec.

14:30–15:30 Benoit Collins

Numerical range for random matrices

15:45–16:45 Yasuo Watatani

Singularities in operator algebras

22 (Sun) Dec.

9:30–10:30 Hun Hee Lee

Operator amenability of the L^1 -algebra of a compact quantum group

10:45–11:45 Hyun Ho Lee

Homotopy classification of certain Hilbert module bundles over one dimensional space
