

Yakushima Story's Script

Day 1, I took a ferry to Yakushima. It was 6:00 so I took a photo of sunrise over Sakurajima. Three hours later I arrived in Yakushima. The day was very beautiful. It was sunny and the sky was blue. I saw some monkeys, but they were a little scary.

Day 2 I visited Yakusugi Land. I went hiking with my guide and saw many Yakusugi. Yakusugi are sugi trees that are 1,000 years old and very big. My guide went in a giant tree. It was cloudy and a little cold. We ate lunch by a pretty river. Yakusugi Land was very beautiful! It was green and covered in moss.

Day 3 was very rainy. I wore a raincoat. In Yakushima it rains 35 days every month! I hiked very far in the rain. I hiked 12km to Joumon Sugi. It has an angry face. It is about 3,000 years old and GIANT!.

Day 4, I also saw Wilson's Stump. It was rainy again. Wilson's stump is about 13 meters across and has a heart shaped hole. 20 people can go inside! For dinner I ate black pig fried cutlet and shabu-shabu. It was very, very delicious. I want to eat Kagoshima pork again! I want to visit Yakushima again too.
